

# McMinnville Transportation Bond

## Alpine Avenue Improvement Project

### Background

In November, 2014, McMinnville voters passed a \$24 million General Obligation Bond measure for street improvements throughout the City. The proposed improvements include a mix of several needed street corridor capital projects; pavement overlay and preservation work on the City's "worst condition" streets; and sidewalk and safety improvements. The projects address existing safety and congestion concerns of importance to the City's citizens and businesses along several busy street corridors. The program consists of seven projects throughout the City:

- Five Capital Improvement Projects to address traffic congestion and improve safety along several street corridors.
- Street Repair and Repaving Projects on portions of 84 City streets.
- Sidewalk and Pedestrian Safety Projects near schools, parks, other public facilities and in the downtown area.

### Alpine Avenue

The Alpine Avenue Improvement Project is one of the five Capital Improvement Projects identified within the Transportation Bond. This project will improve a portion of NE Alpine Avenue in the City's Northeast Gateway District including street surfacing, pedestrian facilities, utility upgrades and landscaping to encourage economic development. The intent for the Alpine Avenue Project is outlined in the Northeast Gateway Plan and identifies Alpine Avenue as being the central spine and primary pedestrian route through the District. An improved Alpine Avenue will provide a low traffic, pedestrian-friendly connection between downtown and destinations throughout the Northeast Gateway District.

### Schedule

Alpine Streetscape Plan: July 2015 – November 2015

Preliminary Design: July 2015 – December 2015

Construction: 2016
